● failed_login_attempts	integer

order

attribute	type
• id (underlined)	integer
● title	string
● bounty	decimal
○ deliver_by	datetime
○ accepted_at	datetime
● service_userid	integer
○ service_rating	integer
● status	string

order_item

attribute	type
• id (underlined)	int
● status	string
○ content	text

user 1 — m order 1 — n order_item

Notes: 1. id is defined for all models automatically (do not explicitly create it)
2. a solid circle = not null
3. an empty circle = can be null
4. underlined attribute = primary key
